

Workflow 2: Creating a New Cell Library

1. Access the cell library palette as shown in Workflow 1. From the cell library palette, select File>New

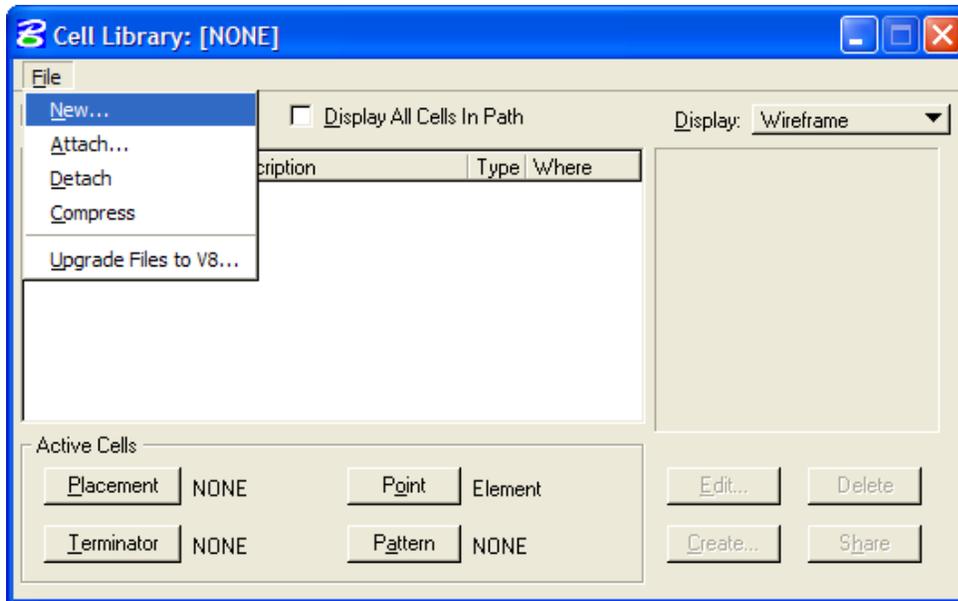

Figure 8-4: Cell Library Dialog Box

2. Pick a path to the directory where the cell library is to be created.
3. Type in a name for the new cell library.

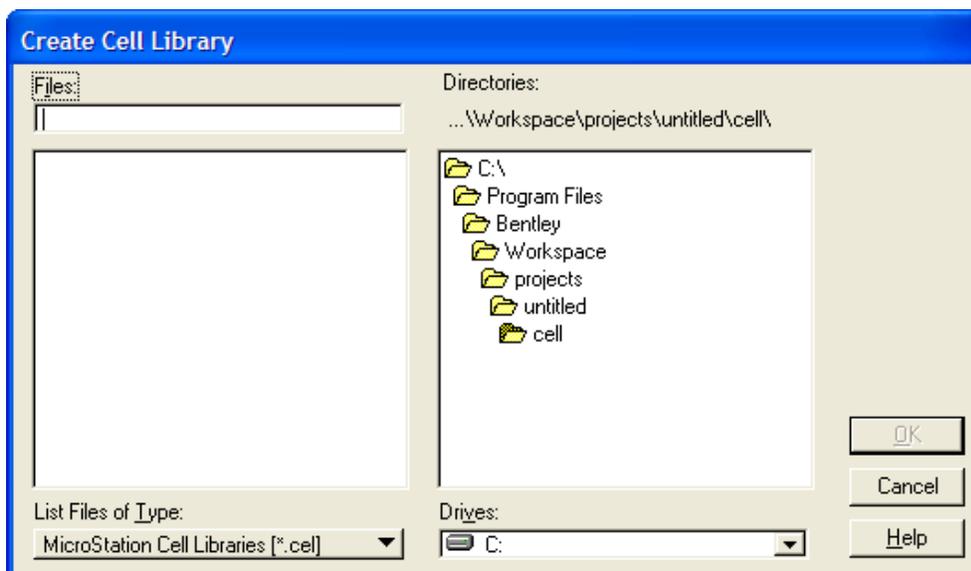

Figure 8-5: Create Cell Library Dialog Box

4. Once the new name has been given, the OK button will activate. Select OK and the new cell library will be attached.
